# Catalyst IT Expertise

- > 300 staff world wide
- > 40 staff UK/EU

Expertise ranging from:

- Education/business training
- Pedagogy and learning design
- Site setup and configuration
- Project Management
- Solutions consultancy
- Theme design
- Development & System administration

# Who are we?

- **eLearning Consultants at Catalyst IT Europe**
  - Training and consultancy on 'ped/andr/heut agogy'
    - Moodle, Moodle Workplace and MEC
    - Totara (Learn, Engage, and Perform)
    - Mahara ePortfolio
    - BigBlueButton web conferencing tool
  - Backgrounds in teaching, assessment and course design in Higher and Further Education

# How does your socially-distanced classroom work?

Source: @BantshireUni - Twitter: <https://twitter.com/BantshireUni/status/1268642108170276866/photo/1>

# Possible situations

1. Face to face with some physical distance between learners
2. Online learning:
  - a. With live interactions
  - b. With asynchronous interactions
3. Hybrid/Blended:
  - a. Face to face with some online learning for learning that can't be done due to social distance
  - b. Online activities with some face-to-face learning for learning that can't be done solely online

# The need of space to innovate

**A new hybrid  
learning space**

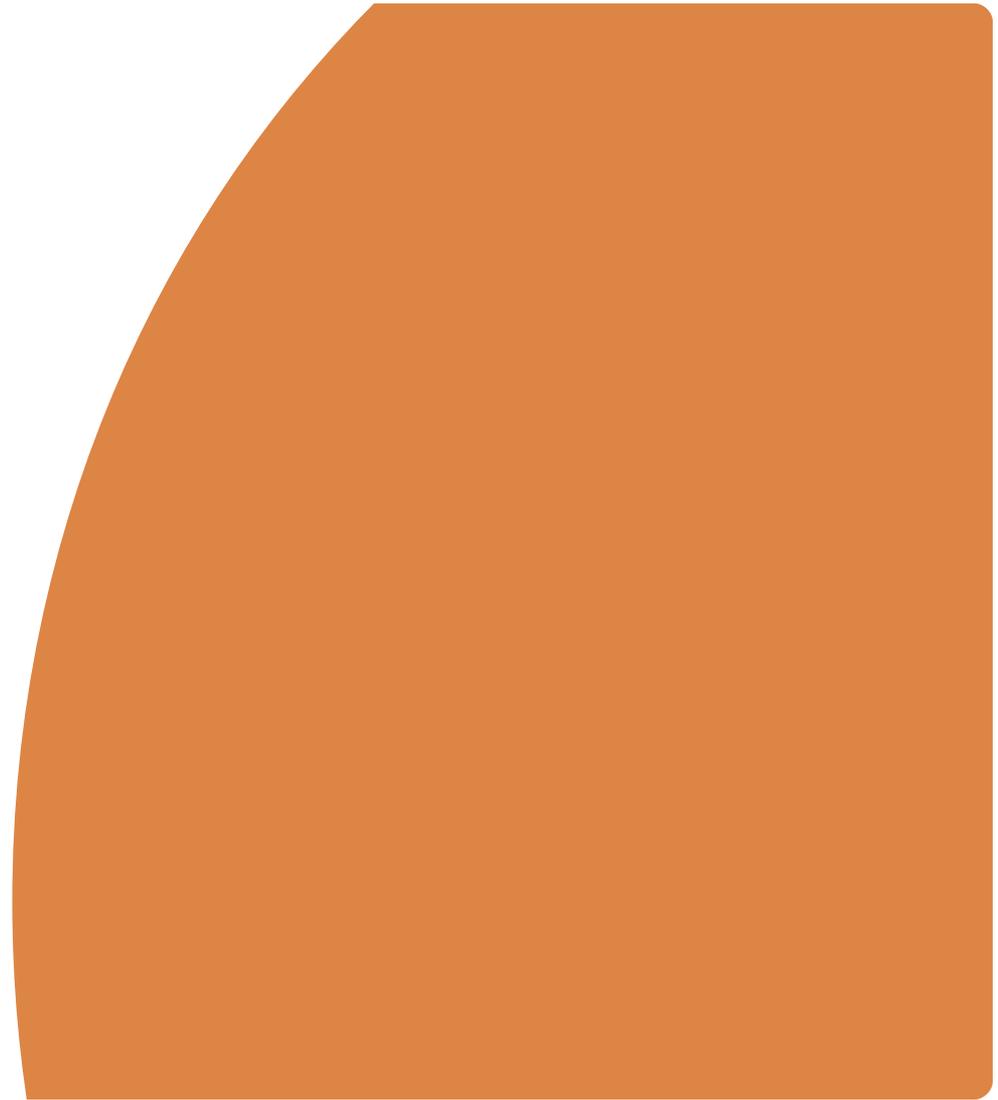

**Pedagogical  
approaches and  
Moodle tools**

**Clean and simple  
formats**

**Opportunity to  
enrich the learning  
experience**

# **A new learning space**

---

# How physical space is affected

---

Photo by [Philippe Bout](#) on [Unsplash](#)

# **Moving your learning online: practical advice**

---

1. Structure your course page
2. Choose your 'lecture/seminar' tools
3. Create opportunities for learning
4. Be present
5. Seek support

# Scaffolding

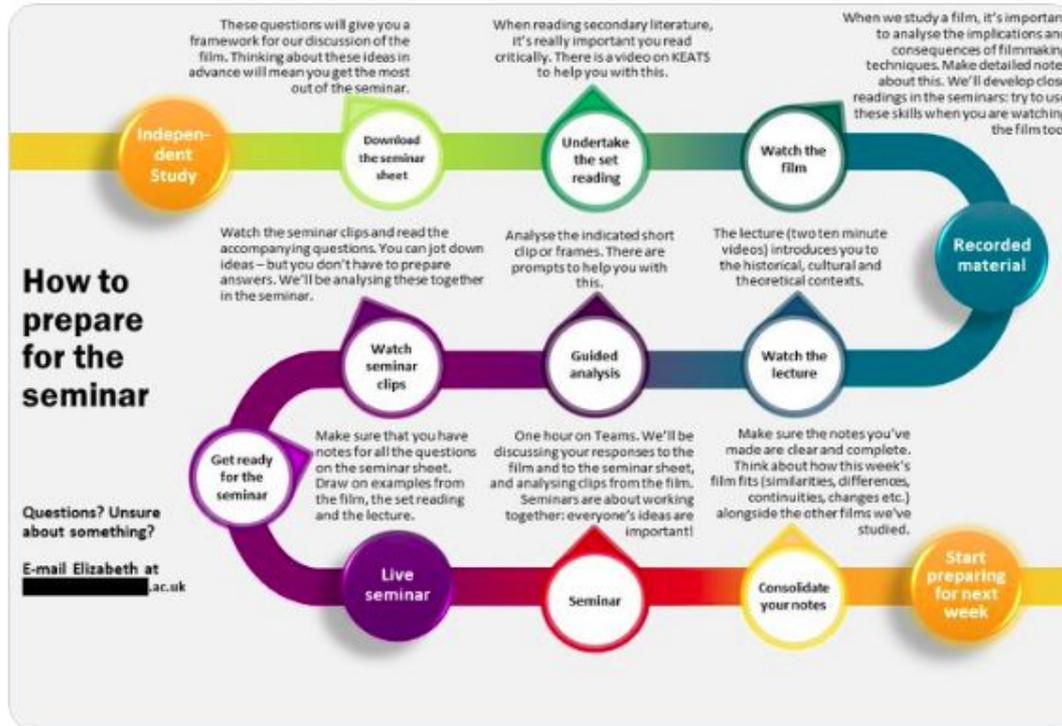

---

**Elizabeth Ward**  
@ElizabethM\_Ward

I've been thinking about ways to make implicit expectations explicit for incoming first-year students when teaching in an online environment. It's a first draft, but this is where I am at the moment.

# Communication

terrible house london whatever what is snow something smelly party fun! sad an old man top  
weather unusual an app for feedback a quick learning too lame bonjour silly dont know outstanding tree  
mindblowing very cool formative assessment no idea brainstorming tool family quick not an actual garden feedback very interesting yeah  
challenging terrific easy to use educational what idk unique school crazy toll strange simple stupid mysterious marvellous mystery  
future teacher fascinating green intriguing clever different cat hallo wonderful helpful hej innovative génial what is the weather  
cool! technology collaborative useful love weird testing user friendly  
flower learning hola neat hi awesome interesting easy okay lit who are you?  
pretty website curious unknown no great 1 cool a red super engaging an app answergarden apple  
snowflake awesome! lovely boring dog new nice amazing fun good funny a website great idea special music why  
immediate meh difficult brilliant i don't know yes hello ok test creative excellent a mystery what? fab  
interesting education free new to me wow fantastic confusing interactive lol sweet hey a new tool superb visual here  
math collaboration brainstorming not sure hoi i dont know exciting beautiful intéressant leuk something new innovation  
fast a brainstorming site funny, opstimistic empowering teacher for live feedback inspiring something collaborative work informative bello  
snow a feedback tool what is your name? powerful effective answer wow! hmmm don't know what do you think?  
war a jumble of words an answer place computer communication diverse online app hard rock climbing

# Dance Injuries (DAN308)

## Note taking

Sam Taylor + 56 · 2yr

### How do you currently take notes?

Follow the guidance on what to write.

- Pen and paper**  
Take down anything that is pertinent, definitions or important points, acronyms and reminders.  
Pro: When I see it in my hand writing it assist me in recalling the detail of the lecture.  
Cons: Can be messy and disorganised especially if the lecturer moves between subject matter or refers back to earlier content.
- Laptop**  
Jot down the key argument and provide the details in point form.  
Pro: Keep the notes in a more orderly way in digital format.  
Con: There are things such as symbols which is faster to write. Therefore may miss out pointers from the lectures if the lecturers are going at a fast pace.
- Pen and Paper**  
Pen and paper with highlights for key points and also insert notes into relevant pages of handouts to match with relevant texts.  
Pros: Works anywhere, no special equipment required.  
Cons: only short notes can be made in lectures depending on how fast the lecturer is going. Only captures a few points, relatively time consuming. Lots of notes get cumbersome and harder to track
- Pen & Paper**  
Pros: It cements learning and by re-writing what you either read or hear makes you think about the concept you are writing down. Helps put things in your own words.  
Cons: May not capture all relevant information. One physical copy could get lost.

## Topic 1: Psychology of dance injuries

FORUM

### Topic 1 discussion forum

Please post all questions for this topic here.

PAGE

### 1) Review resources (1hr)

Please spend up to 1hr reviewing these materials, making notes on what you feel are the key concepts. These will be used in our webinar.

BIGBLUEBUTTONBN

### 2) Attend/review webinar - 20th April 11am (1.5hrs)

If you are able to, please attend this 90min online session. This session will be recorded for those who are unable to attend or want to review what was covered in the lecture.

QUIZ

### 3) Test yourself! (30mins)

This quiz is for you to see how much you understood of the pre-lecture materials and doesn't count towards your final grade. You have 1 attempt.

ASSIGN

### 4) Reflect on your own injuries and create a self-assessment questionnaire (5hrs)

I want you to spend 2hrs thinking about your past injuries, how they happened, how they affected you emotionally. I have provided a template for you to follow. Next I want you to spend 3hrs creating a self-assessment questionnaire you would give to dancers who are injured in order to get an insight into their progress and mental state.
